### **A description of our website:**

Baby Seals is a local band that produces experimental, free jazz music. They perform in local cafes and such. However, Baby Seals lack any sort of digital representation to advertise themselves. Our goal is to create a platform that will resolve this issue and thus allow Baby Seals to better access and develop their fan base through digital means. We shall provide easy access to all the bands info, such as tour dates, merch, about the band, and links to their music.

### **A list of all the HTML markup elements we utilized:**

- <!DOCTYPE>
- <html>
- <head>
- <center>
- <img>
- <h1>
- <h3>
- <br>
- <p>
- <button>
- <body>
- <font>

### **A list of appearance modifications we would like to apply:**

- Add attractive coloring to website
- Add jazzy fonts to text
- Better space different parts of website
